

Surveillance Detection and Attack Recognition

Specialized Training Presented by Eagle Security Group, Inc

In order to protect their facilities, personnel and infrastructure in the post 9/11 world, organizations must possess the means to detect and recognize potential attacks before they occur. To help meet this need, Eagle Security Group, Inc. (ESG) can provide surveillance detection/attack recognition seminars that incorporate classroom instruction and real-world case studies with "hands-on" practical exercises. These exercises are comprised of realistic scenarios using "terrorist" role players. The content and duration of the course can be tailored to the specific needs of the client and is applicable to all employees tasked with facility security from entry level professionals to senior level managers.

ESG provides an unparalleled cadre of instructors who are second-career professionals with FBI, law enforcement and military backgrounds. We assist our clients in enhancing the security of their facilities and personnel by supplying the highest quality and most relevant security-related training. Employing a Capability-Based Planning methodology, ESG

assists our clients in developing prioritized, multi-year, systematic training programs that build and sustain enhanced capabilities. This specialized training can be conducted at the client's own facilities using one of ESG's mobile training teams or at the ESG Northern Virginia Regional Office located in Fredericksburg, VA.

Training Offerings Include:

- Facilities Security and Critical Asset Protection
- Personal Security
- Surveillance
- Surveillance Detection
- Pre-Incident Indicators
- Attack Recognition
- Facilities Threat Assessments and Security Surveys
- Personal Threat Assessments

Who We Are and What We Do

Eagle Security Group, Inc. (ESG) is a multidisciplinary provider of risk management and security services. These services help to reduce the risk of existing and emerging threats that individuals, businesses, and governments face on a daily basis. ESG professionals come from a wide range of careers in law enforcement and the military. Our goal is to utilize their vast experience to solve complex problems at the strategic, operational, and tactical levels in both the public and private sectors. ESG has several strategic alliances with other companies to provide comprehensive solutions and to compete at all levels of industry. Our staff includes professionals with extensive experience in Federal and local law enforcement agencies, the U.S. military, and the private sector. Our management and staff possess unparalleled skills and experience in anti-terrorism and counterterrorism both within the U.S and overseas. ESG staff includes former members of the FBI Critical Incident Response Group, SWAT, the FBI's Hostage Rescue Team and former military special operations personnel. ESG helps their clients to properly address the threats and hazards that face their organization, personnel, facilities, and assets. We work closely with clients to develop, plan, and implement crisis management and security-related measures that mitigate these problems. Our clients are diverse and range from Fortune 500 Companies to the Department of Homeland Security.

Core Competencies

Crisis Management and Continuity of Operations

We provide planning, training and consulting services to both government and commercial clients to help them prepare for and respond to crises and major incidents. ESG, in keeping with National strategies, applies an all hazards approach to its crisis management activities. Our services include assessments, plan preparation, training and exercises, continuity of operations, and on-scene operational support. ESG provides these services for disasters, special events, or whenever a client requires the best of professional services.

Executive Protection We provide planning, training and consulting services to both government and commercial clients to help them prepare for and respond to crises and major incidents. ESG, in keeping with National strategies, applies an all hazards approach to its crisis management activities. Our services include assessments, plan preparation, training and exercises, continuity of operations, and on-scene operational support. ESG provides these services for disasters, special events, or whenever a client requires the best of professional services.

Risk Management Consulting ESG provides a myriad of security-services ranging from vulnerability assessments and crime surveys to the design of integrated security systems and the protection of critical infrastructure.

Investigations ESG can perform background checks, due diligence in support of critical decision making and investigative support to litigation. Given the experience of our staff, no investigative requirement is too complex.

Tactical Training and Training Management

ESG provides a cadre of former FBI SWAT, Hostage Rescue Team (HRT) and military special operations instructors to assist local, state and federal agencies with their specialized training needs.

Readiness Exercises ESG can develop and administer tabletop, command post and full field exercises that test the capabilities and identify the shortfalls in support of an agency's mission. Our exercises comply with guidance in the Homeland Security Exercise and Evaluation Program (HSEEP).

Facility and Personal Security Training Through the use of classroom instruction and practical exercises, ESG can assist our clients in the areas of surveillance detection and terrorist/criminal attack recognition in order to enhance the security of their installations and infrastructure.
